Reducing energy use with your air conditioner or heat pump is probably something you won't mind hearing. Our variable-speed fan coil can move the air through your home more efficiently and may lead to a boost in SEER rating (cooling efficiency) on some systems. Savor enhanced comfort levels with temperature and humidity control, even when temperatures are smoldering.

## Features and Benefits

- Variable-speed blower that can quietly deliver more even levels of temperature and enhanced humidity control
- Efficiency-optimizing Thermostatic Expansion Valve (TXV)
- Compatible with two-stage outdoor units
- Corrosion-resistant all-aluminum coil
- Convenient washable filter
- Air purifier and dehumidifier compatible
- Fully insulated cabinet
- Corrosion-free sloped drain pan design helps reduce mold and bacteria buildup
- 10-year parts limited warranty\*
- 5-year No Hassle Replacement™ limited warranty\*

## Technology/Design

- Thermostatic Expansion Valve (TXV)
- Sturdy galvanized steel cabinet
- Compatible thermostat: three-stage heat/two-stage cool with humidity control
- Non-ozone-depleting R-410A refrigerant
- Capacity: 2–5 tons

## Documents

\*Timely registration required for 10-year parts limited warranty. Limited warranty period is 5 years if not registered within 90 days of installation. Jurisdictions where warranty benefits cannot be conditioned on registration will receive the registered limited warranty period. Please see warranty certificate for further details and restrictions.

\*If evaporator coil fails due to defect during the applicable No Hassle Replacement limited warranty period, a one-time replacement with a comparable fan coil will be provided. Please see warranty certificate for further details and restrictions.

# SmartComfort® Fan Coil

FXM4X

Comfort has met its match when our multi-speed fan coil is added to your outdoor unit. It delivers consistent airflow for more even temperatures and could boost your SEER rating (cooling efficiency) in some systems. It is designed for lasting performance and quiet operation for comfort with no worries.

## Features and Benefits

- Efficiency-optimizing Thermostatic Expansion Valve (TXV)
- Corrosion-resistant all-aluminum coil
- Convenient washable filter
- Fully insulated cabinet
- Corrosion-free sloped drain pan design helps reduce mold and bacteria buildup
- 10-year parts limited warranty\*
- 1-year No Hassle Replacement™ limited warranty†

## Technology/Design

- Thermostatic Expansion Valve (TXV)
- Sturdy galvanized steel cabinet
- Compatible thermostat: two-stage heat/one-stage cool
- Non-ozone-depleting R-410A refrigerant
- Capacity: 1.5–5 tons

# SmartComfort® Deluxe Fan Coil

FCM4X

Get increased comfort and efficiency with our variable-speed communicating fan coil. It can help your system operate more efficiently by creating more consistent airflow throughout your home, helping gain SEER and HSPF rating points for some systems. Enjoy enhanced comfort levels with more even indoor temperatures all year long. And when temperatures are smoldering outside, you can feel a little cooler inside as well with better humidity control capabilities. Create a complete Observer® communicating system for even more control when you pair it with the Observer Communicating Wall Control with Wi-Fi® capability and communicating outdoor unit.

## Features and Benefits

- Communicating variable-speed fan blower that can quietly deliver more even levels of temperature and enhanced humidity

control

- Efficiency-optimizing Thermostatic Expansion Valve (TXV)
- Compatible with two-stage outdoor units
- Enhanced heat pump heating comfort with higher temperature delivery
- Corrosion-resistant all-aluminum coil
- Convenient washable filter
- Air purifier and dehumidifier compatible
- Fully insulated cabinet
- Corrosion-free sloped drain pan design helps reduce mold and bacteria buildup
- 10-year parts limited warranty\*
- 10-year No Hassle Replacement™ limited warranty\*

## Technology/Design

- Thermostatic Expansion Valve (TXV)
- Sturdy galvanized steel cabinet
- Compatible control: Observer® communicating control installed as part of a complete Observer communicating system for full function and efficiency capability, Wi-Fi® remote access convenience, and intelligent diagnostics
- Non-ozone-depleting R-410A refrigerant
- Capacity: 2–5 tons
